Did you notice our Award Winners?

*We listed all the winners of the
Perennial Plant of the Year as
given by the Perennial Plant
Association, since 1991.*

*We carry all the winners except
four:*

2009

*Hakonechloa macra "Aureola"
(we found it isn't hardy for us)*

2005

Helleborus Lenten Rose

2004

*Japanese Painted Fern
(although we do carry a variety
of the painted fern)*

1993

*Sunny Border Blue Veronica
(we carry Royal Candles)*

*add some of the other award-
winners to your gardens!*

What Lives Under A Black Walnut Tree??

Black Walnut trees produce a substance called “juglone” in their roots and leaves, which is toxic to many other plants. Here’s our list of what **may** live under the drip line and near the roots of black walnut trees.

Shrubs and Trees

Dogwood	Hazelnut
American Barberry	Hickory
American Elm	Honeylocust
Beech	Ohio Buckeye
Bittersweet	Pawpaw
Black Birch	Redbud
Black Cherry	Sassafras
Black Gum	St Johnswort
Black Locust	Spice Bush
Black Oak	Sugar Maple
Black Raspberry	Sumac
Current	Sycamore
Dwarf Sumac	Honeysuckle
Elderberry	Tree Of Heaven
Euro. Euonymous	Tulip Tree
Five-Leaved Aralia	Virginia Creeper
Flowering Dogwood	White Oak
Forsythia	Wild Rose
Gray Dogwood	Winged Euonymous
Hemlock	Wintercreeper
Hawthorn	

Annuals & Perennials

Ajuga	Begonia
Astillbe	Ferns
Bellflower	Marigold
Coral Bells	Pansy
Cranesbill	Parsley
Daylily	Phlox
Hollyhock	Tulips
Hosta	Zinnea
Leopard’s Bane	
Lamb’s Ear	
Lungwort	
Monarda	
Primrose	
Siberian Iris	
Spiderwort	
Sweet Woodruff	
Trillium	
Canada Violet	
Wild Ginger	

These WON’T Grow

Apples	Grass	Raspberries
Azalea	Hopa Crab	Rhododendron
Black Berries	Hydrangea	Rose
Blueberries	Mums	Saucer Magnolia
Cherries	Persian Lilac	Seibold Viburnum
Common Lilac	Pontentilla	Tomatos
Evergreens (most)	Privet	Weeping Cherry

How Do I Plant A Tree?

Step One: How Deep?

Dig the hole no deeper than the rootball and at least 4" to 12" wider than the root ball. As you dig, watch the layers of soil you encounter, noting changes in color or texture. If you have 1" or less "topsoil" (darker color than soil deeper down) plant the tree so that 3"-4" of the root ball is above the ground. When in doubt, plant high!

Step Two: How Wide?

Use your shovel as a tape measure. Lay the shovel across the top of the root ball; remember the spot on the shovel and measure the hole as you go. Do the same thing for the depth by holding the shovel next to the root ball; noting the top and subtracting 3"-4".

Step Three: In The Hole!

If this is a large tree, get help! One person to hold the "head" (top) of the tree while the other person rolls the tree into the hole. When the root ball enters the hole, push up on the head so the root ball doesn't go into the hole sideways. Don't forget to untie the top branches of tall trees!

Step Four: Straighten and Backfill

Tie some ribbon on the best side before it goes into the hole. If you need to rotate, grab the wire or rope on the root ball and turn carefully. Once the tree is straight, use the existing soil to back fill the hole. Fill it up half way. Add water. Then mix topsoil, compost, peat or pine bark with the remaining soil in the upper 4" to 6" of the hole. **DO NOT REMOVE THE WIRE BASKET OR BIODEGRADABLE TWINE OR BURLAP FROM THE ROOT BALL!** Remove nylon twine from around the trunk.

Step Five: Build A Watering Ring

Build a ridge 4" to 6" out and around the edge of the root ball, at the same or slightly higher than the tree. Tamp the soil firm and smooth.

Step Six: Water Water Water!

Water 20-20-2: 20% hose volume, for 20 minutes, two times a week during dry periods. Check out our GATOR BAGS to make it easier!!

YOUR LAWN SPRINKLERS WILL NOT SUPPLY ENOUGH WATER FOR TREES OR SHRUBS!

A large empty rectangular box with a thick black border, intended for drawing or writing. In the bottom right corner of this box, there is a smaller grid pattern consisting of 10 columns and 10 rows of squares, also with a thin black border.

LANDSCAPING SERVICES..QUESTIONS, QUESTIONS, QUESTIONS!

What are you LOOKING FOR in a landscape?

What THINGS would you like to see in your landscape?

What PLANTS do you enjoy and wish to incorporate?

Do you have a THEME or FEELING you want an area to have?

Justin: THE "answer guy" for all your landscape construction and design questions!

Any views to block or screen?

If you need to block neighbors, streets, buildings, etc., think about the times of the year when the view bothers you the most, how tall a plant would have to be to block, how long of an area you'd need to plant, and things like that.

What direction does your house face? Do you have lots of wind?

Sun exposure (hours and intensity) and wind exposure (direction and blocking) are very important in plant selection. If the plant you want won't be happy where you want it, we can always find alternatives that will be happy in your specific conditions.

Any colors to include? Colors to avoid? How do you feel about flowers, berries, fruits, and leaves?

Consider your house, existing plants, and your favorite colors. If you really hate yellow and pink, we'll do our best to avoid them! Keep in mind that flowers and fruits can bring birds, bees and butterflies, and that every plant will require at least some care!

"I found this plant on HGTV, the internet or in a magazine, and I just HAVE to have it!"

GROAN! Let us know what you like about the plant, and we'll work hard to find something with similar (or even better!) features that will grow in our area!

**LANDSCAPING SERVICES..QUESTIONS, QUESTIONS, QUESTIONS!
(page Two!)**

Do you plan to add or change any existing hardscapes (walkways, patios, walls, etc.?)

Change that straight concrete walk before you install the new japanese maple! Plants and hardscapes need to be incorporated into your overall landscape design, to keep both function and beauty.

“I love stones! What kind of materials do you use for your walls and patios?”

Stonework is very popular, but when over-done, can give the “Fred Flintstone look” to a landscape. Our stone or boulder walls, rock outcroppings, or flagstone stairs, have a natural, genuine look, and fully integrate into your garden’s other features.

How much are you planning to spend? Do you have a range or a budget?

This is a difficult question, for both you and for us, but very necessary too! Having a budget number to work with helps us choose size of plants, type of materials, size of planting beds, quantity of plants, and so much more. This helps limit the “oh my!” moment in the landscape process.

“Why do you charge for your consultations when other places give them for free?”

A frequently-asked question of many of our customers. When Justin comes to do a consult, you have his promise and ours that he is completely focused on your needs, and any design suggestions are personalized--not from a book, or the same as your neighbors. It is for this level of personal service, time, and expertise, that we charge.

PARMA FIELD DAYS!

At least once a year, it's fun to open the gates of our 56-acre tree farm in Parma, Michigan, and let our customers take a look, and pick out trees "straight from the soil." This year, we've scheduled one Spring Date and one Fall Date.

**SPRING DATE:
APRIL 18th
from 10am to 4pm**

**FALL DATE:
OCTOBER 17th
from 10am to 4pm**

browse nearly 56 acres of trees (no evergreens)

pick out your favorites!

**cash or checks only,
please**

**take them home that
day! (pick-up or trailer)**

**delivery and installation
is available**

DIRECTIONS:

Take I-94 WEST past Jackson to Exit 130 (PARMA ROAD). Turn RIGHT. Follow past Burr Oak golf course to DEVERAUX ROAD. Turn LEFT. The tree farm is on your LEFT about 1/2 a mile down the road. Call the nursery if you need more information or check our website. *Come visit and buy lots of trees!*

HOW WE CAN HELP...AND WHEN WE CAN'T!

"I heard (read, saw it on the internet, had a friend recommend) about this particular plant...and I want it. Can you get it?"

Not always, especially the brand-new varieties. In many cases we can recommend a plant that is just as good (sometimes better) and will grow better in your specific situation.

"I need to exactly match this particular juniper (or other multiple-varieties plant). If I bring in a branch, can you do it?"

Possibly. Matching exact plants is difficult, and we simply can't carry every variety, particularly of junipers and crabapple trees. Tell us what you like about it, and we'll do our best.

"I want that 2" caliper Ginkgo (or 6ft evergreen). Can you put it in my minivan (or SUV)?"

Nope! Over the years the rule has evolved that "if it takes a bobcat to pick it up, it takes a pick-up or trailer to take it home." Would you want to work with Jane or Phil when their backs hurt? Trust us-- it's not pretty!

"When do I prune my lilacs? Or my rose of Sharon?"

Prune SPRING BLOOMING shrubs *after they flower*; prune SUMMER BLOOMING shrubs *just as they leaf*. When in doubt, call and ask us!

IT AIN'T NECESSARILY SO... THE TOP 10 LODI FARMS MYTHS

- 10) We can tell you the AGES of all the trees!
- 9) We can put ANYTHING in an SUV!
- 8) We know EXACTLY how much that tree will grow!
- 7) YOU'RE RIGHT! If it doesn't have a price tag IT IS FREE!
- 6) The logo DOESN'T match the window!
- 5) Dan and Jane inherited the nursery and farm
- 4) Jane's last name is "LODI"
- 3) Justin and Dan are brothers
- 2) Justin (or Jack) is related to Jane
- 1) JANE and PHIL are MARRIED!!

It's not easy being GREEN...

-Kermit the Frog

GREEN, GREEN grass of home...

-Claude Putman, Jr

**GREEN, GREEN, it's GREEN they say,
on the far side of the hill...**

-Eddy Arnold

Suddenly, everyone and everybody and every business is
screaming **GREEN!!**

Lodi Farms has been GREEN for 17 years...nurseries have
always been called the **GREEN INDUSTRY!**

- *trees produce oxygen and remove carbon dioxide*
- *trees absorb pollutants and act as filters*
- *trees can shade your home and cut your summer energy bills*
- *trees can shelter from winter winds and cut winter heating bills*

When you plant trees, shrubs, perennials or even grass...

- *you increase the value of your home substantially*
- *you provide instant curb appeal*
- *you offer shelter for birds and butterflies*
- *you reduce soil erosion*
- *you reduce noise pollution*

How do you feel when you're outside at home? Stressed because the weeds are getting taller, the grass needs mowing, and the dog just dug up the delphiniums? **Or are you listening** to the birds, **admiring** all the shades of green, **smelling that first hint** of lilacs in the air on a cool spring evening, **and watching the kids play**, or the seeing the kittens do some "big game hunting" for bugs?

This year, let the grass get a little longer, think of weeds as "perennials without a press agent" **don't grab the pesticide** immediately if your leaves get a few holes in them, **embrace your garden's special needs** (shade, sun, wet, dry, clay, wind) and just **relax and enjoy the growing season**. **Add some plants** that make you smile, **feed your eyes**, have a **history in your family**, or were just too cool to not try. **Experiment with** color, texture, **bloom times, heights and scents**. So then, when all around you are screaming "GREEN!" you may simply reply

"YES I AM..would you like to see my garden?"

TREE QUOTES!

**Keep a green tree in your heart
and perhaps a singing bird will
come.**

-Chinese proverb

**Good timber does not grow with ease;
the stronger the wind, the stronger the
trees.**

Keep a singing bird in your tree and perhaps a hungry cat will come!

-Lodi Farms Cat proverb

**Alone with myself
The trees bend to caress me
The shade hugs my heart**

-Candy Polgar

The wonder is that we can see these trees and not wonder more.

-Ralph Waldo Emerson

**Which of you by worrying can add one cubit to his stature? So why
do you worry about clothing? Consider the lilies of the field, how
they neither toil nor spin; and yet I say to you that even Solomon in
all his glory was not arrayed like one of these.**

-Matthew 6:27-29 (NKJV)

**Stand tall and proud
Sink your roots deeply into the Earth
Reflect the light of a greater source
Think long term
Go out on a limb
Remember your place among all living
beings**

**Embrace with joy the changing seasons
For each yields its own abundance
The energy and birth of Spring
The growth and contentment of Summer
The wisdom to let go of leaves in the Fall
The rest and quiet renewal of Winter**

-Ilan Shamir, Advice from a Tree

**The talking oak to the ancients spoke
but any tree will talk to me!**

-Mary Carolyn Davies

**Character is like a tree and
reputation like a shadow; the
shadow is what we think of it;
the tree is the real thing.**

-Abraham Lincoln

SPECIAL EVENTS AND FUN PROMOTIONS!

MOTHERS' DAY WEEKEND

This is our busiest weekend, and we make it even more special and fun with "BRING IN MOM (or a picture or note) AND GET 25% OFF ONE ITEM" with the request that the note must say "Love, Mom" and if possible, rhyme! Join us!

MEMORIAL DAY

This 3-day weekend has a 4-day sale! Come "SING A PATRIOTIC SONG" and save 25% off 2 plants! If you're shy, we'll find more customers to sing and make a choir!

FATHERS' DAY WEEKEND

Dads should get the same treatment! We run the same sale-- "BRING IN DAD (or his great words of wisdom) for 25% OFF ONE ITEM". We've heard wisdom from "check the oil" to Bible verses!

FALL WEEKENDS IN OCTOBER

We've got hayrides, u-pick pumpkins, our amazing straw bale maze, live music at least one weekend, and (at least) 25% OFF ALL NURSERY STOCK!

CHRISTMAS SEASON

The crazy calendar continues on for Christmas! Come see our handmade wreaths, swags, green, and pick out your Christmas tree INSIDE THE GREENHOUSE! We'll have fun sales too, like "Obscure Christmas Carol Day."

TOURS AND TALKS

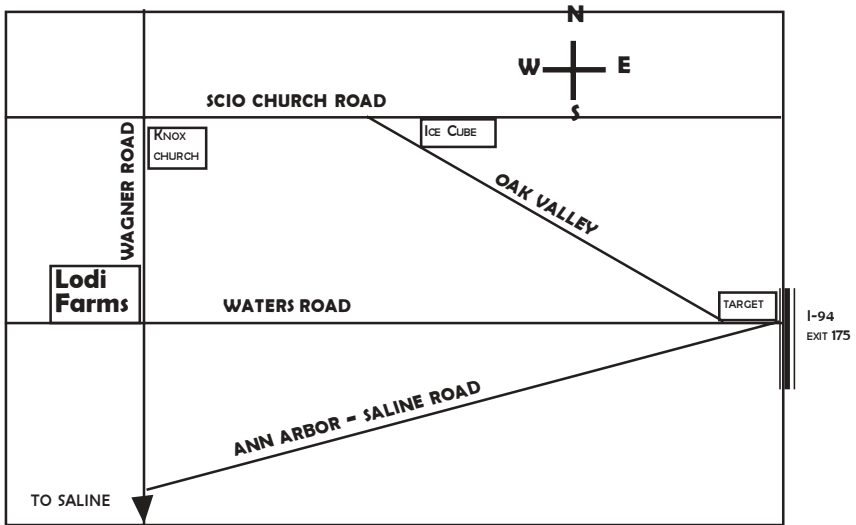

If your group wants to come out for a special project, or you need a guest speaker on many plant-related topics, give Jane a call!
