WELCOME TO LODI FARMS NURSERY!

Here's our story...

Long, long ago (OK, back in 1986) Dan and Jane Riddle began a landscape contracting business called Timberscapes out of their house in Saline. The business steadily grew, and was moved to the present 18-acre location on Wagner and Waters Roads in 1987. In 1988 Dan and Jane's new house (with the window that inspired the logo) was built. Their daughter, Rachel, was designed and added in 1989.

We began the retail nursery in 1992, with a prayer and a one-page price list. People were pleased with the level of service and quality of the plants so they kept coming back, told their friends, and we kept growing! We added the greenhouse in 1995 which everyone appreciated on wet or cold days. During that time we had a kids gardening club, participated in the Ann Arbor Flower Show, and started growing some of our own plants. During the last 8 years we've expanded Landscape Contracting, and, in 2003, bought a 56-acre tree farm in Parma, Michigan (just west of Jackson).

Our success comes from God's blessings, a great staff, wonderful customers and hard work!

It's fun to come and shop for plants here--we have crazy sale days, including hopscotch day, sing a TV theme song, find the cats or hug the dog and lots more! Stop by often to see what's new, what's blooming, what's on sale and how we can help you!

We will make every effort to have the plants listed in our catalog in stock; however, some plants are subject to availability, and popular plants can sell out. We may have other plants not listed in the catalog. Prices are subject to change. Feel free to call to check if the plant you want is in stock. We may be able to special order plants at certain times of the year.

SERVICES AVAILABLE AT LODI FARMS

LANDSCAPE DESIGNS

What stage are your gardens in? From swingsets and sandboxes to cookouts and volleyball courts; grass gardens and easy-care perennials; bluestone paths and specialty gardens or in between? **Let our friendly, skillful designer create plans to match your lifestyle and your budget!** Call for your appointment today..at the greenhouse OR at your house!

LANDSCAPE CONTRACTING

Walkways? Patios? New planting beds? Foundation plantings? Retaining walls of rock, timber or stone? Entry gardens? Curb appeal? We can do it all--from design to the last pitchfork of mulch!

LANDSCAPE RENOVATION

Did you fall in love with the house--then see the landscaping? We can help you decide what's great and what's compost, then make the outside fantastic! **Great landscaping helps sell**

houses too!

REPLACING ASH TREES?

Ashes, Ashes, they all fall down! (sorry--couldn't resist). Come in and get one or two trees for your house, or get the neighbors together, and we'll give you great service, great trees, and great group prices and get it done!

We are a pre-qualified nursery for Ann Arbor Street Tree Replacement

DO IT YOURSELF PROJECTS

Weekend plans? **Let's use that pickup truck** and those back muscles!

Your plans or ours, we've got everything you need--soils and compost,

barks, stones from gravel to boulders, and of course, beautiful plants!

Beautiful landscapes START with Michigan-grown plants!

NEED A SPEAKER? CALL JANE!

From Garden PMS to Bible Herbs, or Christmas Legends to Butterfly Gardening, Jane's talks are fast-paced, informative and fun!

GIFT CERTIFICATES

Celebrate the birth of a child, an anniversary, a wedding, or new house. Plants are a thoughtful living memorial. Certificates are available in any amount you chose, and we are happy to create a customized certificate for you. Give a garden to a friend!

OUR GUARANTEE

We are confident in our plants and our planting advice, and we want your plants to succeed. To prove this, we offer a **LIFETIME GUARANTEE** on all trees and shrubs we sell.

This excludes acts of vandalism, neglect and rodent/animal/bug damage.

If your plant should die, bring back what you can, and your **ORIGINAL RECEIPT** and we will give you a **STORE CREDIT** for the **ORIGINAL AMOUNT YOU PAID**; or in the case of an **EXACT PRICE MATCH**, a replacement of the original-sized plant you purchased.

WE DO NOT AND WILL NOT GIVE CASH REFUNDS.

This guarantee is limited to a single replacement, and does not apply to wholesale sales or clearance sales.

Removal of the plant and installation of the replacement plant are included in the guarantee for one year if we planted the tree (same size tree). After the first year, charges for removing the old and delivering the new apply.

WE WANT YOU TO SUCCEED AND BE SATISFIED WITH OUR PRODUCTS

Jane, Dan and Rachel Riddle and The Lodi Farms Staff

NEED BARK?

(or topsoil? or woodchips? or stones?)

Here's our "magic formula" to find out how much you need!

Our bulk materials are sold by the "cubic yard." Here's how to determine how much you need to order. Start by measuring in feet, then

TAKE LENGTH X WIDTH = AREA

DIVIDE AREA BY 27

(THIS GIVES YOU 12" THICK OF MATERIAL)

DIVIDE THIS TO GET TO THE THICKNESS YOU WANT.

We recommend a minimum of 4" thick for bark to keep the plants protected and the weeds away (so divide by 3) and at least 2" thick for topsoil (divide by 6) and 4" of plant mix (divide by 3).

Our minimum delivery is 3 yards (of the same material--we can't mix materials in one truck) and there is no additional delivery charge for Saline or Ann Arbor (except 48105 zip code) and reasonable delivery charges for Dexter, Ypsilanti, etc. Every delivery now has a \$10 fuel surcharge. Call us and compare prices and check our Calendar Of Savings for sales!

If you have an open-bed pickup truck or trailer (or a friend with one that owes you a favor) we will load our bulk materials into your truck or trailer. Sorry, we can't do our bulk materials by the bushel or bags. Other pre-bagged materials are available too.

When you spread your bark, be sure to not let the bark touch the woody stems or the tree trunks

Hardwood Bark (dk brown)

\$39/yard 3-5 yds delivered

\$37/yard 6+ yds delivered

\$33/yard picked up

Cedar Bark (golden brown) **OR**

Pine Bark (dbl shredded and looks like coffee grounds)

\$42/yard 3-5 yds delivered

\$40/yard 6+ yds delivered

\$36/yard picked up

Topsoil, Compost or Planting Mix

\$32/yard 3+ yds delivered

\$26/yard picked up

Other products are available--please call us!

COMING SOON! Online bark and soil ordering thru our website! Order bark in your jammies!

OUR FURRY FRIENDS

“Where are the cats today?” is a common question of many customers (and especially the kids) when they stop in. Usually you’ll find our cats

somewhere in the greenhouse--in baskets, on the counter, running thru with

a mouse in their mouths...and they’re always willing to be adored--or fed! We’ve got a nice group of cats, almost all related,

and with good nursery names, of course: Tulip

and Violet (brother and sister) and Thyme (their cousin), and our two new kitties

Gracillimus and Cosmopolitan (Gracie and

Cosmo) named after grasses of course! They will learn to be nursery cats--eventually!

Our Great Dane,” Holly (Princess of Lodi)” , shown here on

vacation in Florida, is now seven years old and calmer--at last! She’s all black, (although getting gray--aren’t we all?!) with a white design on her chest, and white on her paws. Ask us about her

addiction to peanut butter! She enjoys her role as nursery dog. She loves kids and will usually greet customers with a bark from the deck!

Our beloved first Great Dane, Concolor, died in March of 2002. He was only 7 years old and we miss him still. Con was loved by everyone and was very popular on and “Bring The Dog A Raw Potato Day.”

He was unique and we’ll never forget him.

To all our cherished nursery animals, including our original nursery dog, Phoenix, a flock of ducks from the flower show, many beloved kitties and now our precious Concolor, we miss you all and wish you sweet rest at the Rainbow Bridge.

SPECIALTY CONIFERS

Chamaecyparis nootkatensis 'Pendula'

WEeping ALASKA CEDAR

medium growing pyramidal coniferous evergreen tree; height 25 to 30ft - spread 5 to 25ft likes sun likes acid soil - does well in containers statuesque narrow tree
6ft-7ft 220.00

COLUMNAR SCOTCH PINE
 slow growing columnar evergreen tree;
 height 15 to 30ft; space 6 to 8ft; likes sun;
 blue gray foliage; unusual ornamental pine.
 7'-8' 250.00

Nursery Jargon 101

B&B does not mean "Bed and Breakfast!" It refers to the root ball of larger shrubs and trees. The roots are dug up in a BALL and wrapped in BURLAP. Leave the burlap on when you plant--just untie any nylon ropes around the base of the plant. Burlap and any biodegradable rope will rot and the wire basket will rust away.

CAL stands for "CALIPER" which is the diameter of the trunk of the tree approximately 6" from the base of the tree, up to 4" caliper trees.

CLUMP is a short way of writing "multistemed trunk" used to describe trees with more than one main trunk. These can include serviceberry, redbud, magnolia, and birch trees.. think "more trunks, more flowers!"

CONTAINER GROWN are plants grown from the start in pots rather than in the ground. Same results!

"Many parts of a pine tree are edible"
 Euell Gibbons

EVERGREENS

Picea abies

NORWAY SPRUCE

rapid growing evergreen tree; height 75 to 125 feet - spread 40 to 60 feet; likes sun; likes acid soil; stately specimen

7ft to 8ft 180.00
8ft to 10ft 280.00

6ft to 7ft 180.00

Picea glauca

BLACK HILLS WHITE SPRUCE

NATIVE!

rapid growing evergreen tree; height 40 to 60 feet - spread 10 to 20 feet; likes sun; use as hedge, windbreak; very adaptable

5ft to 6ft 120.00
6ft to 7ft 150.00

Picea pungens 'Glauca'

COLORADO BLUE SPRUCE

slow growing evergreen tree height 60 to 100 feet - spread 20 to 35 feet; likes sun; slow growth but eventually very large

5ft to 6ft 120.00
6ft to 7ft 150.00
7ft to 8ft 220.00

Pinus strobus (*Michigan's State Tree!*)

EASTERN WHITE PINE

rapid growing evergreen tree; height 60 to 100 feet spread 20 to 40 feet; likes sun subject to windburn - needs adequate water

NATIVE!

6ft to 7ft 150.00

Thuja occidentalis 'Smargd'

EMERALD GREEN ARBORVITAE

medium growing evergreen shrub height 8 to 10 feet - spread 3 to 5 feet; likes sun

3ft to 4ft 50.00
6ft to 7ft 100.00
7ft-8ft (to be dug) 150.00

Tsuga canadensis

CANADIAN HEMLOCK

NATIVE!

medium growing pyramidal evergreen tree; height 40 to 90 feet - spread 20 to 35 feet; sun or part shade; likes acid soil; an excellent hedge (handles black walnuts too!)

5 gal 50.00
5ft to 6ft 180.00
6ft to 7ft 220.00
7ft to 8ft 250.00

ALL dwarf conifers and evergreens prefer acidic soil.

When planting your evergreens and conifers, please use generous amounts of canadian peat moss and compost.

Remember: put a \$5 plant in a \$10 hole the better the soil, the happier the plants!

When Planting Your Trees...

...think **"wide and shallow"** for the hole.
...leave **at least 4"** of root ball above ground ...**cut only nylon rope** from the root ball ...**leave the wire basket on**
...**mix soil enhancements** to upper 4"-6" of hole
...**build watering ring** 4"-6" out from the root ball
...**water, water, water!**
...**think 20-20-2: 20%** of the hose 'pressure **for 20 minutes...2 times a week...call us if you have questions!**

SHADE TREES

2.5" caliper 450-500lbs
3" caliper 700-800lbs
5ft evergreen 300+lbs

Jane's Serviceberry Coffecake Beat Together:

1/2 cup butter
1/4 cup cream cheese
1 egg
2 cups brown sugar
1 tsp vanilla extract

Add In

2 cups flour
2 1/2 tsp baking powder
1 tsp cinnamon (more is always good!)
1/2 cup light or heavy cream
(alternate the flour with the cream)
Gently fold in 2 cups of serviceberries
(blueberries work very well too!)

Topping: Mix together and sprinkle

3/4 cup brown sugar
3/4 cup flour
1 1/2 tsp cinnamon (more is always
good!)
1/2 cup soft butter

BAKE AT 350 degrees about 35-40
minutes--start testing after 30 min
(lovingly modified from my mom's
original recipe-try it and let me know!
)

The land produced vegetation; plants bearing seed according to their kinds and trees bearing fruit with seed in it according to their kinds. And God saw that it was good. (Genesis 1:12)

ORNAMENTAL TREES

REPLANTING ANN ARBOR Recommended Trees for Street Extensions

Lodi Farms is a pre-authorized nursery for city of Ann Arbor street tree replacements. The City of Ann Arbor Forestry Department has a list of acceptable trees, based on the size of the homeowner's lawn extension and open area between trees. We have taken this list and created our own list based on our tree inventory. We've found this helps customers who want to look at the varieties of trees available before making their selection.

The requirements are that the authorized nursery (us) obtain the permit for site review; call Miss Dig for underground utility locations; and deliver and install the tree. The homeowner (you) is able to receive a federal property tax deduction letter to credit up to \$1,000 upon receipt of the paid tree installation invoice and the authorized Forestry Permit.

SMALL TREES (25' mature height; 6'wide extension and 30ft open area between trees)

Paperbark Maple
Serviceberry
Redbud
Ornamental Cherry
Dogwood
Smoke Tree

MEDIUM TREES (25'-40' mature height)

River Birch (single stem)
European Hornbeam
American Hornbeam
American Yellowwood
Persian Parrotia

Ornamental Pear
Japanese Tree Lilac
LARGE TREES (40'+ mature height; 8ft extension and 45ft between trees)

Katsuratree
Hackberry
Ginkgo
Kentucky Coffeetree
Sweetgum
Tulip Tree
Blackgum
London Plane
Swamp White Oak
Northern Red Oak
Linden
American Elm
Accolade Elm
English Elm
Japanese Zelkova

Many customers come in feeling very violated that their trees have died thru no fault of their own. Please know that we will do everything we can to make this purchase and installation of your new trees go as smoothly as possible.

We are also giving a 20% discount on the price of up to two (2) trees to be planted on street extensions.

If you have questions, please call us or the Forestry Department of Ann Arbor (994-2768).

A complete copy of the pdf file from the City of Ann Arbor is available at <http://www.annarbor.org/department-publicservices/fieldoperations/> forestry/Documents/Tree_List_and_Nurseries_09.pdf

3 gal	35.00
-------------	-------

THEME PARKS? THEME WEDDINGS? THEME GARDENS? WHY NOT! How about an ALPHABET GARDEN?

Astilbe, Bergenia, Catmint, Delphinium, Echinacea, Ferns, Galardia, Hosta, Iris, Jacob's Ladder, Karl Forester Grass, Lady's Mantle, Mums, Narcissis, Othello, Pincushion Flower, Queen of the Prairie, Roses, Sage, Tiarella, Eupatorium, Violets, White Swan Coneflower, X??, Yarrow, and Zebra Grass!

How about a STORIES GARDEN?

There are wonderful stories for many plants, including Serviceberry, Lavender, Yarrow, Sage, Parsley, Coneflowers, Black-Eyed Susan, St. John's Wort, and so many more! This could also turn into a "healing garden" with plants that have healing properties or stories.

How about an ANIMAL GAR- DEN?

Lambs Ear, Little Bunny Grass, Toad Lilies, Dogwood, Porcupine Grass, Goatsbeard, Butterfly Bushes, Butterfly Weed, White Swan Coneflower, Catmint and Spiderwort!

Don't forget about a FAMILY HISTORY GARDEN!

Grandma did *what* under the lilac bush!?!? Talk to your relatives (*it won't be that bad!*) and find out favorite plants from aunts, uncles, grandma, grandpa, and others.

There are lots of books on old-fashioned flowers, and it's a wonderful history to give to your own children as well!

Any plant names can make great stories...I had a minister's wife who came in completely distraught--her *Archangel Lamnium* had died, but her *Lucifer Crocosmia* was **thriving!**

GRASSES:

Calamagrostis acutiflora 'Karl Foerster'
KARL FOERSTER'S FEATHER REED GRASS

height 5 to 7 feet; sun or part shade; good fall colors; strong vertical plant; blooms open green, turn burgundy
